# BUILDING SCIENCE WORKSHOP

*Two Of The Foremost Building Scientists In The World!*

*"When things go wrong...these are the guys who get the calls"*

Ed Voytovich, BACA

**Joseph Lstiburek, Ph.D., P.Eng.**, is a principal of Building Science Corporation LLC and an ASHRAE Fellow. He has twenty-five years of experience in design, construction, investigation, and building science research. Through the Department of Energy's Building America program, Dr. Lstiburek has forged partnerships with designers, builders, developers, materials suppliers and equipment manufacturers to build higher performance homes across the U.S.

For a complete, extensive resume: [www.joelstiburek.com](http://www.joelstiburek.com).

**Terry M. Brennan Terry** is a building scientist and educator. He is on the editorial boards of Environmental Building News and Heating Piping and Air Conditioning Magazine. Recent work includes consulting on a research project to restore three homes in the Seventh Ward of New Orleans after Hurricanes Katrina and Rita, teaching healthy housing courses for the National Center for Healthy Housing and working on a research project to study unplanned airflows in commercial buildings in New York State. He is a member of ASHRAE 62.2 Ventilation and Air Quality Committee and served as consultant to the National Academy of Sciences Committee on Dampness and Health in Buildings. He holds a Bachelors degree in Physics and a Masters degree in Environmental Studies
